

Donnez Uterine Manipulator

For laparoscopic hysterectomy

Anatomical :

design of the instrument allows LH in vast majority of cases

Easy :

- no complicated assembly or set-up prior to use
- cleaning and sterilisation as with standard instruments

Quick :

learning curve for placing the uterine manipulator and use of the instrument is short

Cost effective :

the device is fully reusable

Coated for isolation

Ergonomic handle for easy manipulation by the assistant

- Standard 3,5 cm internal diameter cup
- Transparent cup for visualisation during initial placement
- Cup design allows exposure of anatomical structures
- Isolated cup maintains pneumoperitoneum during most of colpotomy

Donnez Uterine Manipulator

Order number : 110 - 035
